ABOUT THIS PROJECT

Julphar Towers Lobby (**Residential & Commercial**)

Entrance lobbies speak a lot -they are an **introduction** to what the building offers, be it for the residents, for offices or any business.

IRD has transformed the monotone interiors into a **welcoming space**, embracing the height of the space and lights acting as **feature**, dancing as the light changes from day to night.

The art is representative of the contextual **design intent** as a marriage between the colours and the landscape.

This is transformation.
